

SCOPE DECORATING LIABILITY WAIVER FORM

I understand that scope manufacturers that make claims related to waterproof or water resistant scopes may not have indicated a total submersion of the product in water as covered under any said claim. I understand that if damage occurs, the manufacturer may void the warranty.

I acknowledge that by allowing Chameleon Camo and Hydrographics to decorate my firearm scope, I understand that flooding may occur and I do not hold Chameleon Camo and Hydrographics responsible for any damage related to the submerging of the scope in water. I acknowledge that a representative from Chameleon Camo and Hydrographics has explained the procedure for the decoration and I am willingly allowing this process to take place even though there is a possibility that my scope may be damaged.

I give Chameleon Camo and Hydrographics permission to decorate my scope and fully understand the risks involved.
